Education

Universidade de Coimbra — Coimbra, Portugal

Bachelor's Degree in Sociology; — *Sep 2011 – Jun 2014*

"Acertar o Rumo": Java EE Development and Computer Sciences — *Oct 2017 – Oct 2018*

- Developed 15+ projects in small teams addressing progressive web development challenges
- Created projects ranging from basic HTTP/CSS websites to advanced multiplayer web games with chat functionality
- Capstone project: Fully functional social network platform with comprehensive features including profile management, content sharing, friend connections, and real-time chat
- Technologies: Java, MySQL, Tomcat, JUnit, Java Server Faces, WebSockets, REST

Professional Experience

Accenture — Braga/Coimbra, Portugal

Full Stack/SAP Developer — *Sep 2018 – Jan 2025, Full-time*

- ***Full-Stack Java & Spring Boot:***
  6 years of full-stack development experience, designing and developing backend services and REST APIs with Java and Spring Boot within a microservices-like architecture.
- ***Front-End Architecture & Modern Frameworks:***
  Principal developer in SAP UI5 (MVC framework), with expertise in component-based architecture and modern JavaScript/TypeScript principles, providing a direct pathway to transitioning into React.js development.
- ***AWS & Cloud Fundamentals:***
  Hands-on experience with cloud-native application deployment and management on SAP BTP, with foundational knowledge and training in AWS cloud services and infrastructure.
- ***Technical Leadership & Agile Scrum:***
  Acted as Technical Lead and de facto Scrum Master for a multinational team; facilitated sprint planning, retrospectives, and mentored junior developers, scaling the team from 8 to 20+ members.
- ***DevOps & Code Quality Initiatives:***
  Championed code quality by establishing code review processes, introducing refactoring strategies, and building a Selenium/Cucumber (BDD) testing framework from scratch to enable Continuous Integration.
- ***End-to-End Project Lifecycle:***
  Managed the full Software Development Lifecycle (SDLC), from client requirement gathering and user story design to backend development, frontend implementation, and cloud deployment.
- ***Cross-Industry Solution Delivery:***
  Delivered robust, scalable software solutions for demanding sectors including healthcare, energy, and automotive, demonstrating strong analytical and problem-solving skills.
- ***Fluency in English:***
  Fluent in English (C1 level) and Spanish (B2 level), with a proven track record of effective communication in multinational teams and direct client/stakeholder engagement.

Technical Skills

Backend: Java, JavaEE, SpringBoot, SAP CAP, Node.js, Python

Frontend: React, SAP UI5, Dart

Cloud: AWS, SAP BTP, Cloud Foundry

API: REST, OData

Database: MySQL, Postgres, PL/SQL, SAP HANA

Methodologies: Agile, Scrum

Other: Linux, Vim, Bash, Power Shell, Git, LaTex, Lisp

Certifications

SAP Certified Development Associate - SAP Fiori Application Developer (May 2023)

SAP Certified Development Associate - SAP HANA 2.0 SPS05 (April 2023)
